

YAC-F1013

1H,1H,2H,2H-perfluorodecyltrimethoxysilane

CAS No. 83048-65-1

Specifications:

Tests	Specification
Appearance	Colorless transparent liquid
Assay	≥97.0%
Density (25°C)	1.520~1.530g/cm ³
Refractive index (nD ²⁵)	1.3280~1.3380

Package: 1Kg/Bottle or 25Kg/Drum.

Application:

- Provide excellent water-repellent, oil-repellent, easy-to-clean and UV-resistant coating on glass, ceramics, granite, ceramic tile, natural stone and wood-plastic composite material surface, antifouling coating on building materials, additive for sol-gel systems.
- Synthesis of fluorosilicones, Coating of pigments in cosmetics, CVD processes.

Storage: Keep sealed, store in a cool, dry, and ventilated place.

Recommend Shelf Life: 12 months.
